

BPC-090

MINI COMPUTER SYSTEM

TECHNICAL SPECIFICATION

The Boston BPC-090 is our new small form factor mini PC, specifically designed with robustness and simple installation in mind. With a footprint of just over half an A4 page, this unit is ideal for use where space is a premium.

Compact and lightweight, the BPC-090 is proving popular and reliable with customers. The chassis is produced from anodised black aluminium with fixing holes for panel or under-desk mounting. The unit is network ready with ethernet and internal wifi fitted as standard enabling instant connection to the internet or other network resources. It comes with Boston's MP800 and SW900 control software pre-installed but can be supplied unconfigured on request. An optical mouse and compact keyboard are also included as standard, and the system can be operated using Boston's RFC-90 remote control.

Main Features
